

13 desktop charging stations

2023
SOURCE
ROUNDUP

A compact reference for comparing total output, port topology, single-port ceiling, power sharing, AC outlets, and wireless charging.

How to use this guide

01 / START WITH THE LAPTOP	02 / COUNT CONCURRENT DEVICES	03 / CHECK POWER SHARING
A 140W USB-C port matters mainly for laptops that can accept more than 100W. Confirm the laptop, cable, and charger all support the same PD profile.	A large port count does not guarantee full-speed charging. Count the devices you actually charge at the same time and include AC or wireless needs.	Multi-port output can change when another device is connected. Look for the exact split that matches your laptop, phone, tablet, and accessories.

Editorial disclosure: this is a source-based comparison, not a Webhall Labs hands-on test. Specifications were summarized from a ChargerLAB / chongdiantou.com article published 3 November 2023. Models, firmware, availability, pricing, and regional specifications may have changed. Verify current manufacturer documentation before purchase.

Quick comparison

#	Model	Total	Ports / features	Max USB-C	Power notes	Notable feature
01	AOHi 120W GaN	120W	2C2A	100W	45+18+18+45W (4 ports)	1.5m cable
02	Baseus 100W power strip	100W	2C2A + 2 AC	100W	Multi-port sharing	AC outlets
03	BULL 100W GaN	100W	3C1A	100W	C3 30W; A 22.5W	Broad protocols
04	CANDYSIGN 120W	120W	4C1A + 2 AC	100W	C2-C4 65W	Modular design
05	MEIZU PANDAER 120W	120W	3C + 3 AC	100W	Each C supports 100W	mCharge support
06	MOMAX 100W four-port	100W	2C2A	100W	65+30 / 45+30+18	Compact hub
07	MOMAX 100W 7-in-1	100W	4C2A + wireless	100W	C3/C4 30W; A 30W	15W wireless
08	mophie 120W	120W	3C1A	100W	C3 20W; A 12W	Travel pouch
09	TEGIC QUICKBEE 210W	210W	3C1A	100W	Selectable power modes	Status display
10	UGREEN 100W 2-in-1	100W	2C1A + wireless	100W	A 22.5W	15W MagSafe
11	UGREEN Nexode 300W	300W	4C1A	140W	PD 3.1 + UFCS	Highest total output
12	UGREEN 100W Strip Pro	100W	3C1A + 3 AC	100W	A 22.5W	2500W AC total
13	UGREEN 140W Strip Ultra	140W	2C1A + 3 AC	140W	PD 3.1	Integrated strip

Abbreviations: C = USB-C; A = USB-A; AC = mains outlet; PD = USB Power Delivery; PPS = Programmable Power Supply; UFCS = Universal Fast Charging Specification.

What stood out in the 2023 roundup

HIGHEST TOTAL OUTPUT	UGREEN Nexode 300W	300W total, five USB ports, and a 140W PD 3.1 USB-C ceiling.
FLEXIBLE POWER MODES	TEGIC QUICKBEE 210W	Selectable multi-port modes and a built-in display for desk setups.
MOST USB + WIRELESS	MOMAX 100W 7-in-1	Six USB ports plus 15W wireless charging in one station.
AC OUTLET INTEGRATION	Five models	Baseus, CANDYSIGN, PANDAER, and two UGREEN power-strip designs combine charging with AC outlets.
TRAVEL-ORIENTED	mophie 120W	Three USB-C ports, one USB-A port, and an included travel pouch.
